3. Active non-implantable therapeutic devices and general active non-implantable devices - MDA 0312 Other active non-implantable surgical devices Devices that directly contact central nervous system or central circulatory system are excluded.	Conformity assessment based on: product quality assurance	Annex XI(A)
3. Active non-implantable therapeutic devices and general active non-implantable devices - MDA 0313 Active non-implantable prostheses, devices for rehabilitation and devices for patient positioning and transport Active prostheses and exoskeletons are excluded.	Conformity assessment based on: product quality assurance	Annex XI(A)
3. Active non-implantable therapeutic devices and general active non-implantable devices - MDA 0315 Software Software intended to provide information, which is used to take decisions having an impact that may cause death or an irreversible deterioration of a person's state of health, and therapeutic devices with an integrated or incorporated diagnostic function, which significantly determines the patient management by the device e.g. closed loop systems or automated external defibrillators, are excluded.	Conformity assessment based on: product quality assurance	Annex XI(A)
3. Active non-implantable therapeutic devices and general active non-implantable devices - MDA 0317 Active non-implantable devices for cleaning, disinfection and sterilization Devices for sterilization are excluded.	Conformity assessment based on: product quality assurance	Annex XI(A)
